Student Learning Outcomes

- Identify basics of Federal and California income tax law as it relates to Sole Proprietorships and Partnerships.
- Demonstrate practical knowledge of income tax form preparation and tax compliance process as these relate to sole proprietorships and partnerships.

Description

This course introduces students to current Federal income tax law as it relates to business income, business expenses, sole proprietorship reporting, and business property transactions. The learning process focuses on guided discussion of tax concepts in the forums, with all questions and answers welcome and encouraged. In addition, topics covered help students to prepare for two professional license examinations: Certified Public Account (CPA) Test and Special Enrollment Examination (SEE). Both are highly regarded certifications in accounting and tax fields.

Course Objectives

The student will be able to:

1. Describe and explain tax concepts related to business income and business expenses
2. Prepare tax reporting forms for a sole proprietorship
3. Describe and explain tax concepts and reporting requirements related to business property transactions
