Student Learning Outcomes

- A successful student will be able to practice critical thinking skills examining the human intercultural experience.
- A successful student will improve individual communication skills within and among multicultural groups.
- A successful student will develop skills in identifying and interpreting a variety of nonverbal communication patterns across different cultures.

Description

A comparative and integrative study of intercultural communication in American society. Analysis of cultural histories, cultural concepts, language, ethnic perspectives, perceptions, symbols and roles as they facilitate or hinder effective verbal and nonverbal interaction across cultural lines. Examination of cultural identities which influence thinking and behavior, such as race, class, gender, ethnicity, sexual orientation, nationality, age, appearance and physical ability.

Course Objectives

The student will be able to:

- Identify the basic concepts of communication theory.
- Examine cultural, sociological, and psychological influences on intercultural communication.
- Analyze verbal and nonverbal dimensions of intercultural communication.
- Analyze the barriers to effective intercultural communication relative to intercultural differences.
- Examine messages through nonverbal communication signals in appropriate cultural code.
