

D H 352: HEALTH COMMUNICATION & CULTURAL ISSUES

Foothill College Course Outline of Record

Heading	Value
Effective Term:	Summer 2021
Units:	5
Hours:	5 lecture per week (60 total per quarter)
Degree & Credit Status:	Degree-Applicable Credit Course
Foothill GE:	Non-GE
Transferable:	None
Grade Type:	Letter Grade Only
Repeatability:	Not Repeatable

Student Learning Outcomes

- The students will apply theories of communication and culture to interpersonal, small group, and electronic contexts in healthcare and dentistry.
- The students will analyze communication, health, and oral health resources regarding cultural issues, diverse populations, literacy and health literacy levels, working with English learners, and addressing disparities in the delivery of health and oral health care.

Description

Health communication and multicultural issues unique to the dental and medical fields. Topics include intercultural communication; health literacy; interpersonal, small group, electronic, and nonverbal communication; listening; persuasion, caring for limited English proficient people; and working with interpreters. Intended for students in the Dental Hygiene Baccalaureate Degree Program; enrollment is limited to students accepted in the completion track.

Course Objectives

The student will be able to:

- Understand the importance and value of communication competence in healthcare.
- Apply cultural theories in interpersonal and group relationships.
- Identify and create health education resources for low literate people.
- Cite the factors of non-verbal communication when working with English Limited Proficiency patients and using interpreters.
- Analyze the importance of listening skills in the healthcare environment using evidence based literature.
- Apply knowledge of major areas to interpersonal communication studies in a healthcare setting for diverse populations.
- Evaluate the issues related to group dynamics and effective communication tools for small group communication.
- Develop patient appropriate materials to explain the concepts of patient privacy, patient rights, and finding reliable information about health topics.
- Assess communication techniques that facilitate a successful interview in the healthcare sector.

Course Content
