Student Learning Outcomes

- The successful student will be able to evaluate and interpret an international, multicultural selection poets. While focusing on poetry of the last fifty years, students also evaluate and write about poetry from Primitive to Modern times.
- A successful student will develop knowledge for preparing annotated bibliographies and literary presentations.

Description

The honors section offers rigorous preparation in discussion and analysis of poetic forms, techniques, meanings, and history of poetry for students intending to transfer to a four-year college or university. Because poetry, since the mid-nineteenth century, has turned internationally toward a more communicative and social form of literary expression, emphasis relies on modern examples in English and translation to develop the student's ability to read, understand, and evaluate a poem in the context of the modern world. Honors students have the opportunity to engage in deeper critical analysis and evaluation of poetry and its social, historical, and literary contexts, through the application of higher level, student-generated, student-centered discussion and creative assessments.

Course Objectives

The student will be able to:

- Recognize and understand the relevance of poetry in a historical, social, and literary context
- Understand and apply theories and terminologies of explication of formal designs appropriate to an introductory level discussion of poetry
- Compose a formal analysis essay demonstrating appropriate academic language and scholarly rigor
- Research appropriate secondary sources and integrate those into literary analyses without plagiarism
- Demonstrate appropriate formatting and documentation
