Student Learning Outcomes

- Synthesize and analyze the major themes and patterns of the Middle Period of Western Civilization in writing
- Recognize and assess the impact of individuals on the course of history in writing

Description

Survey of the development of Western society and culture from the early Middle Ages through the Age of Enlightenment. Emphasis upon the cultural, social, intellectual, and institutional changes that led to the birth of the modern Western culture and its interchange with the peoples of the world's continents.

Course Objectives

The student will be able to:

1. Analyze the resultant decentralization on the successor states to the Western Roman Empire, including the Franks, the Holy Roman Empire, and Byzantium.
2. Assess the significance of the development of Islam and the rise of the Umayyads and Abbasids on the Middle East and the Western world.
3. Critically evaluate the rise and development of Eastern Orthodox and Roman Catholic churches.
4. Examine and evaluate the political, economic and social development of medieval Europe.
5. Synthesize and evaluate the causes and results of the Renaissance.
6. Describe the origins of the scientific, commercial and religious revolutions of the 15th-18th centuries.
7. Analyze the movement of the Enlightenment and modern man's conception of the universe.
8. Appreciate the expanding multiculturalism of the early modern world and the continuous interactions with Africa, the Near East, Asia and the New World.
9. Effectively communicate in writing and orally the challenges and legacies of the "Middle Period" of the Western civilization.
10. Describe the application of the scientific method in conducting research in areas relative to history.
