

# MUS 1: INTRODUCTION TO MUSIC

## Foothill College Course Outline of Record

Heading	Value
<b>Units:</b>	4
<b>Hours:</b>	4 lecture, 1 laboratory per week (60 total per quarter)
<b>Degree &amp; Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Area I: Humanities
<b>Transferable:</b>	CSU/UC
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

## Student Learning Outcomes

- A successful student will explain how music is a reflection of the historical, sociological, religious, and political circumstances that surround it.
- A successful student will demonstrate a basic knowledge of the structural building blocks of music.
- A successful student will be able to hear differences in the different musical styles in Western music.

## Description

A study of Western music and its place in civilization. Selected listening and readings from the masterpieces of music of Europe and the Western Hemisphere with an emphasis on methods of comprehension, listening techniques, the elements of music, primary musical forms, and a wide range of concert repertoire. Includes a study of how social, political, philosophical, and other artistic developments outside of music influenced compositional thinking and how these were integrated into the different periods of Western musical history. A variety of media consisting of slides, videos, recordings, and lecture will be used. Live performance used when possible.

## Course Objectives

The student will be able to:

- identify the basic elements of western music, e.g., pitch, rhythm, harmony, style and form.
- discuss musical instruments and their functions.
- distinguish between various types of music in the Western world.
- attend one live concert making observations of and listening for musical styles, characteristics and forms discussed in class.
- write objectively and intelligently about significant musical experiences.
- describe similarities and differences between classical music forms and other diverse forms of pop music such as rock, reggae, etc.
- understand the different effects that social, political, philosophical, and religious thinking had on artistic expression with particular emphasis on music.
- write and critique and assigned music video and/or film.

## Course Content

- Study of fundamentals

- Elements - melody, rhythm, dynamics, instrument color, texture, form, style, harmony
- Description of music instruments
- Emotional effect of music
- Purpose of music and its place in culture
- Study of western music to the present time
