

# LEARNING IN NEW MEDIA CLASSROOMS (LINC)

## LINC 50 • TECHNOLOGY IN THE K-12 CLASSROOM I

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 255; students may enroll in LINC 50 or 50B, but not both, for credit.

**Degree and Credit Status:** Degree-Applicable Credit Course

<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course introduces essential methods for evaluating and integrating educational technologies into teaching practices. Students will explore and select appropriate digital tools, develop basic educational resources, and engage in foundational peer collaboration. Emphasis is placed on practical application through small-scale projects and reflective practices, enabling participants to enhance their teaching with technology effectively. The course encourages iterative learning and feedback in a collaborative environment, preparing educators to implement and adapt technologies in their professional settings.

## LINC 50A • TECHNOLOGY IN THE K-12 CLASSROOM II

<b>Units:</b>	0.5
<b>Hours:</b>	6 lecture per quarter (6 total per quarter) This course meets 1 time per quarter.
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 255S.

**Degree and Credit Status:** Degree-Applicable Credit Course

<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

An introductory course about educational hardware technology in the classroom. Intended for educators, this hands-on course demonstrates integration of hardware technologies such as document cameras, interactive white boards, student response systems, tablet devices, smart phones, etc., for teaching and learning with any standards based curriculum. Emphasis is given to creating student-centered activities using appropriate educational hardware technologies.

## LINC 50F • INTEGRATING TECHNOLOGY & REFLECTIVE PRACTICES IN 21ST CENTURY EDUCATION

<b>Units:</b>	2
<b>Hours:</b>	2 lecture per week (24 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 225.

**Degree and Credit Status:** Degree-Applicable Credit Course

<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

Designed for K-14 educators, this course offers hands-on experiences in integrating cutting-edge educational technologies and 21st century skills into any standards-based curriculum. The focus is on using frameworks to develop, implement, and reflect on technology-enhanced projects that foster student-centered learning. Special emphasis is placed on incorporating strategies for personal and professional resilience through reflective practices and peer feedback.

## LINC 51C • ARTIFICIAL INTELLIGENCE LITERACY & ETHICS IN EDUCATION

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course introduces educators to the foundational concepts of artificial intelligence (AI), emphasizing its practical and ethical implications in educational settings. Students will explore the evolution of AI, its current applications in learning environments, and critical ethical issues such as data privacy, bias, and equity. The course combines theoretical learning with case studies and practical exercises to enhance AI literacy among educators. Special emphasis is placed on developing strategies to integrate AI responsibly in education, ensuring alignment with ethical standards and educational equity.

## **LINC 51D • ARTIFICIAL INTELLIGENCE INTEGRATION IN EDUCATIONAL PRACTICES**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course focuses on practical applications of artificial intelligence (AI) in education, providing educators with the skills needed to select, implement, and evaluate AI tools within the classroom. Students will analyze and evaluate various AI technologies, including machine learning and natural language processing, and engage in hands-on practice to enhance real-world understanding. Topics covered include designing AI-enhanced curricula that improves teaching effectiveness and student learning experiences, troubleshooting AI technologies, and overcoming institutional barriers to technology integration.

## **LINC 53 • INTEGRATING TECHNOLOGY INTO MATHEMATICS**

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 263.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

Overview course for mathematics educators to promote and encourage the use of technology in mathematics instruction at any level to support and enhance mathematics teaching and learning and to increase the use of technology for visualization and multiple representations of math concepts. Other topics include the assessment of technology enhanced math projects, California Mathematics Content Standards, state-approved mathematics textbooks, ISTE Technology Standards, California Technology Standards, and Common Core Standards.

## **LINC 53B • INTEGRATING TECHNOLOGY INTO MATHEMATICS GRADES 6-8**

<b>Units:</b>	0.5
<b>Hours:</b>	6 lecture per quarter (6 total per quarter) This course meets 1 time per quarter.
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; fundamental understanding of content topics in LINC 53; not open to students with credit in LINC 263T.

<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This intermediate course for middle grades (6th-8th) mathematics educators promotes and encourages the use of technology in mathematics instruction to support and enhance mathematics teaching and learning and increases the use of technology for visualization and multiple representations of math concepts. Other topics include the assessment of technology enhanced math projects, California Mathematics Content Standards, state-approved mathematics textbooks, ISTE Technology Standards, California Technology Standards, and Common Core Standards.

## **LINC 57 • DESIGNING LEARNER-CENTERED INSTRUCTION**

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

Educators will examine the learner-centered approach to teaching in order to create transformative experiences for students. Educators develop the skills and conceptual knowledge for instructional design and creating student-centered learning activities that meet Common Core and content standards. Topics addressed include how learning happens, the role of educational technologies in student engagement, and effective modifications to existing instructional material. Following the learner-centered classroom guidelines, educators will create a multidisciplinary unit of instruction that is aligned to teaching standards and include both formative and summative assessments.

## **LINC 57A • WELCOMING & ENGAGING STUDENTS IN THE ONLINE ENVIRONMENT**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course is designed to equip educators with the skills and strategies necessary to create supportive and inclusive virtual classrooms. It focuses on humanizing online learning environments by fostering socio-emotional connections that enhance student engagement and participation. Students will learn to implement practices that support learner independence and cultivate a community through effective communication, welcoming language, and interactive activities. Special emphasis is placed on overcoming barriers to online student success by designing welcoming introductions, supportive system integrations, and community-building exercises that are mindful of cognitive loads and equity-based expectations. Through practical applications, students will develop and share resources such as introduction videos and engagement plans that demonstrate their understanding of humanizing online education.

## **LINC 57B • CREATING COMMUNITY IN THE ONLINE ENVIRONMENT**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity with web browsers, email, downloading, and uploading; familiarity with online learning management systems.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course focuses on methods for establishing and maintaining a sense of classroom community in an online environment, with a special focus on equity and cultural responsiveness. Students will practice strategies for supporting the success of online students, including developing a sense of presence in a virtual environment, humanizing communication, celebrating student diversity, developing clear and consistent policies, and managing discussions and group assignments. Special emphasis will be placed on developing an action plan for building equity and culturally responsive teaching practices in the online environment. Identifying and understanding federal and state regulations, as they apply to online teaching and learning, will also be a part of this course.

## **LINC 58 • GLOBAL PROJECT-BASED LEARNING**

<b>Units:</b>	2
<b>Hours:</b>	2 lecture per week (24 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 224.

<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

Intended for educators (K-14) who want to develop understanding and competencies in using the 21st century skills strategy of global project-based learning to create powerful, culturally diverse learning environments. Teachers and students connect globally via internet telecommunications software to work collaboratively on curriculum-based, real-world projects. Participants will create a project that engages students in learning curricular content.

## **LINC 58A • E-PORTFOLIOS**

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 223.

<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course focuses on the development and utilization of digital portfolios as dynamic tools for showcasing achievements and reflecting on growth. It guides participants through the process of selecting, organizing, and reflecting on artifacts that demonstrate skills and adherence to educational standards. Students will explore various multimedia tools to build and enhance virtual portfolios and engage in reflective practices to facilitate ongoing development and self-assessment.

## **LINC 59 • INTEGRATING 21ST CENTURY SKILLS INTO INSTRUCTION**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Intended for educators at all levels (K-12, college) and trainers of any discipline to develop the knowledge, skills, and attitude necessary to create instructional experiences integrated with 21st century skills, such as critical thinking, creativity and problem solving, collaboration, and communication. Participants examine the skills that business and industry determine to be important for new employees to know in order to succeed in a 21st century global economy. Participants determine the importance of integrating 21st century skills into their courses, and analyze their curriculum content and instructional strategies to determine which 21st century skills they currently teach and which additional skills can be integrated. The final course project is a lesson, unit, or project that requires the participants' students or trainees to use 21st century skills.

## **LINC 60C • EDUCATIONAL GAME DESIGN**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This course applies a design thinking process to the design and development of an educational game. Students study the foundations and mechanics of game design, explore the use of games in teaching and learning experiences, and analyze tabletop, digital, and alternate reality games for their educational purposes. Following established methodologies, students research, design, develop, and refine an educational game through an iterative process. The final product will be tested with learners and evaluated on its educational impact.

## **LINC 60E • EDUCATIONAL APPLICATIONS FOR EMERGING TECHNOLOGIES**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This course provides a hands-on overview of emerging technologies from an educational perspective. Students explore new technologies, such as virtual/augmented reality and generative artificial intelligence, and analyze their use for instructional purposes based on educational frameworks, standards, and policies. Issues of equity and accessibility, along with practical strategies for integrating these experiences into the classroom, are centered in discussions throughout the course. Students will create projects, lessons, and content that support teaching and learning goals using emerging technologies. Through this course, students will stay informed about current trends and future directions of emerging technologies and identify opportunities for innovation in educational contexts.

## **LINC 60K • GAME-BASED LEARNING**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 243.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Intended for educators who want to explore computer-based and internet games that engage students in science, engineering, and other content learning. Participants analyze existing games for their educational value, create their own simple educational game, and determine how students learn when they create a game. Participants use a systematic method of game design to identify goals, develop a game, and evaluate the game's effect on learning outcomes.

## **LINC 62 • CLOUD-BASED WORD PROCESSING TOOLS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 270.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Provides hands-on experience using cloud-based word processing programs. Topics include: formatting techniques for reports, letters, or creative projects (e.g., flyers, brochures, information graphics); editing tools; using styles; creating section breaks; inserting text boxes, graphic objects, and multimedia; creating tables; working with headers and footers; merging documents; collaboration and other advanced features.

## **LINC 63 • CLOUD-BASED DATA ANALYSIS TOOLS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge of internet technologies, such as using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 269.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This course covers a variety of powerful cloud-based data analysis tools (e.g., Microsoft Excel, Google Sheets, and Apple Numbers) that can support educators, students, and business professionals in myriad tasks, including analyzing performance data, tracking expenditures, budget development, meeting planning, workflow processes, and database management.

## **LINC 64 • SLIDE PRESENTATION DESIGN**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 246.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Develop the knowledge and skills to create effective and visually appealing slide presentations. This hands-on course uses software such as Keynote, PowerPoint, Prezi, or Google Presentations; however, primary emphasis is placed on applying visual literacy concepts. Additional topics include typography, inserting audio, applying animation/transition effects, and applying good presentation design.

## **LINC 66C • SEARCHING & RESEARCHING THE INTERNET**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 208.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intermediate course for those who use the internet for personal research and in their work. Emphasizes using advanced search techniques that incorporate logical reasoning, critical thinking, essential questions, and inquiry-based learning to refine searches, maximize the advantages of different search engines, evaluate websites for credibility, understand the legitimacy of search results, and use search findings ethically.

## **LINC 66E • CLOUD-BASED PUBLISHING TOOLS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 283S.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This introductory, hands-on learning course compares the relative advantages and disadvantages of using a variety of cloud- (internet-) based publishing tools for the purpose of group collaboration, an e-portfolio, a social networking space, or information sharing. Emphasis is given to creating a basic collaboration and sharing space for education, business, or personal applications.

## **LINC 67 • DESIGNING WEB-BASED LEARNING PROJECTS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Creation of online projects that promote inquiry-based student learning and effective use of cloud-based tools for research. Participants generate ideas for projects and develop their own project with focus and purpose. Participants align their project with academic and skills-based standards requiring students to synthesize information by completing a challenge task.

## **LINC 68G • TEACHING & LEARNING WITH GOOGLE APPS FOR EDUCATORS**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity with web browsers, email, downloading, and uploading.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators seeking to become Google Level 1 Certified, this course covers all Google Applications for Education, including Classroom, Docs, Drive, Sites, Forms, Sheets, Slides, YouTube, Maps, Gmail, Calendar, and Chrome. With a focus on achieving educational outcomes, participants will learn the fundamentals of each application, and will design integrations between multiple applications to create a seamless workflow. Emphasis will be placed on bringing teaching and learning into the online environment, organizing and managing online work, and utilizing application features to expand and improve student learning opportunities. Upon completing the course, participants will be prepared to take the Google Certified Educator Level 1 Examination.

## **LINC 70 • WEB PAGE DESIGN OVERVIEW**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 200; students may enroll in LINC 70 or 70B, but not both, for credit.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Hands-on overview of how to design and create webpages using current online authoring tools, such as Google Sites, Wix, Weebly, or others. Advantages of different online web authoring tools will be analyzed. Techniques covered include building multiple pages; adding images, widgets, videos, banners, social media, calendars, and other features to create a neat, professional looking website. No knowledge of HTML is required.

## **LINC 73 • ADOBE PHOTOSHOP OVERVIEW**

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; students may enroll in LINC 73 or 73B, but not both, for credit; not open to students with credit in LINC 230.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Explore digital imaging with hands-on experiences that integrate image media with teaching and learning. Emphasis is given to creating student-centered projects or activities using Photoshop. Learn to enhance image color and contrast, touch-up photos, create collages that tell stories, paint with the paint tools, create layouts with text, apply filters and special effects, automate work-flow. Learn to communicate with compelling layouts.

## **LINC 73H • ADOBE ILLUSTRATOR OVERVIEW**

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; students may enroll in LINC 73H or 73J, but not both, for credit; not open to students with credit in LINC 233.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Adobe Illustrator creates drawings, illustrations, and images for print or web. Use vector graphics; draw objects, stroke outlines and pattern fills; work with brushes, gradients, color blends; design type; and develop graphs. Learn basic procedures of vector drawing to create moderately complex illustrations that can be transferred to collateral design.

## **LINC 73I • ADOBE ILLUSTRATOR I**

<b>Units:</b>	0.5
<b>Hours:</b>	6 lecture per quarter (6 total per quarter) This course meets 1 time per quarter.
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 233S.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This course provides hands-on experience with the basic elements and tools of Adobe Illustrator, a software drawing tool, to produce simple vector illustrations. Includes methods of illustration that contribute to digital storytelling.

## **LINC 75A • INTRODUCTION TO TECHNOLOGY-ENHANCED INSTRUCTION**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic skills using standard computer systems and internet-based technologies.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Designed for educators and trainers, this course provides students with a foundational understanding of technology-enhanced learning models. It focuses on the design and implementation of inclusive digital learning experiences that engage and support diverse learners. Students will explore and integrate digital tools to enhance learner interaction and engagement, practice ethical technological use in educational environments, and examine best practices for using instructional technologies. The course also emphasizes standards-based reflective practices, enabling educators to continuously improve their instructional strategies.

## **LINC 75B • INSTRUCTIONAL TECHNOLOGY STRATEGIES**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** It is advised, but not required, that students have the background knowledge and skill taught in LINC 75A; basic skills using standard computer systems and internet-based technologies.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This instructional design and technology course builds on the coursework of LINC 75A and focuses on the specific strategies for using technology in the education or training environment. Students develop instructional plans that use technology to meet the needs of a variety of learners; plan for effective use and management of technology for teaching and learning (e.g., laptop carts, mobile devices, bring your own device [BYOD], classroom audio-visual, online technologies and learning systems); and learn to manage instructional design projects. This course is part of the Instructional Design and Technology program sequence.

## **LINC 75C • DESIGNING DIGITAL CURRICULA**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** It is advised, but not required, that students have the background knowledge and skill taught in LINC 75A and/or 75B; basic skills using standard computer systems and internet-based technologies.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This advanced course builds on foundational instructional design principles to address the unique challenges of online education. Students are guided through the process of creating well-organized, engaging virtual curricula using cost-effective multimedia resources. Emphasis is placed on the strategic application of web-based technologies to design both synchronous and asynchronous online courses that are inclusive and accessible. Through hands-on projects, students will learn to use interactive digital tools to develop compelling and effective online learning experiences.

## **LINC 77 • DESIGN THINKING OVERVIEW**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Students learn an overview of the design thinking methodology and its applications in education, business, industry, and government. Focus is on introducing all aspects of the design cycle through inquiry-based facilitation and engaging immersive activities to develop understanding of the design thinking process.

## **LINC 77A • DESIGN THINKING PROCESS**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Students delve deeper into design thinking to hone skills in facilitating design thinking methodology when working in groups. Special attention is given to using the design thinking process for exploring how to bring positive disruptions and shifts in mindsets in order to arrive at innovative solutions.

## LINC 77B • DESIGN THINKING & TINKERING

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Student participants from community, business, and education practice design thinking, a process that innovators, designers, policy makers, and educators are using to develop innovative and collaborative solutions to real world challenges. Participants use the design thinking process as they build low resolution prototype models using both physical and digital materials. Focus is on working individually and in teams, to hone skills of defining problems, collecting information, brainstorming, and developing solutions.

## LINC 77C • DESIGN THINKING FOR TEACHERS

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This course introduces participants to the design thinking process with a focus on educational applications. Through a blend of theoretical and practical approaches, participants will learn to apply design thinking methods to address real-world challenges from an educational standpoint. The course emphasizes hands-on project development, fostering innovative and collaborative solutions that can be implemented with learners. Participants will engage in a structured process that includes identifying challenges, empathizing with stakeholders, ideating solutions, prototyping, testing, and reflecting on their projects.

## LINC 77D • DESIGN THINKING CHALLENGES

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This course introduces students to the development and implementation of design challenges in educational contexts. Students will engage in hands-on project development, comprehensive planning, and reflective practices. Course activities include framing problems, setting success criteria, managing resources, and gathering feedback to improve projects. By participating in and evaluating various design challenges, students will gain practical experience and insights into applying design thinking in different educational settings.

## LINC 78A • COMPUTATIONAL THINKING FOR EDUCATORS

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Computational thinking is an essential problem-solving skill in the digital age. This course, which is designed for educators, provides instruction in components of computational thinking, including data analysis, abstraction, and algorithms. Students learn how to add computational thinking concepts into many content areas, with a special emphasis on related NGSS and Common Core Math computational thinking practices, including opportunities to integrate these concepts into instructional practices in multiple and interdisciplinary areas within education.

## LINC 78B • BLOCK BASED CODING CONCEPTS

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This course, designed for educators, provides the foundational computer science concepts using block based computer programming languages, such as Scratch, Blockly, Logo, and others. These concepts illustrate the use of scripts, loops, and arrays in computer science, without the need to type or master the syntax of higher level programming languages.

## LINC 78C • PROJECT-BASED TECHNOLOGY PROJECTS

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Intended for educators, this course focuses on integrating technology into project-based learning to support educational outcomes across various disciplines. Emphasizing the development of interdisciplinary educational projects, the course covers basic circuitry, physical computing concepts, and the creation and adaptation of technology-enhanced educational projects. Students will gain practical skills in coding, project development, and the application of technology to address real-world educational challenges, fostering an engaging and inclusive learning environment.

## LINC 78D • PHYSICAL COMPUTING FUNDAMENTALS

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity with web browsers, email, downloading, and uploading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This introductory makerspace-oriented course covers the foundational components of physical computing, specifically as it relates to makerspace projects and activities. Participants will build and use a basic computer by connecting circuits, creating inputs and outputs, writing code, and programming physical devices to interact with users. Computational and design thinking practices will be emphasized throughout. Participants will gain a fundamental knowledge of the form and functions of computers, as well as the ways in which computers can solve simple and complex problems. Practical skills include model construction, circuitry, algorithm design, troubleshooting, debugging, and engineering for design.

## LINC 79 • MULTIMEDIA PROJECT PRODUCTION

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; familiarity with multimedia software.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This hands-on, project production course demonstrates how to integrate online multimedia production tools and resources (music, audio, images, video, animation) to produce a variety of artistic or communicative media for use in education, business and personal applications.

## **LINC 79A • INTRODUCTION TO IMMERSIVE MEDIA IN EDUCATION**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading; this course uses VR headsets and hand controllers as part of instruction.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators at all levels, this course provides an overview of the emerging field of immersive media (virtual reality, augmented reality, and mixed reality) and examines its current and potential future impact on education. Students explore and evaluate a variety of educational applications and experiences in both virtual and augmented reality, and develop plans for using immersive media as an instructional tool.

## **LINC 79B • SOCIO-EMOTIONAL LEARNING THROUGH IMMERSIVE MEDIA**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading; this course uses VR headsets and hand controllers as part of instruction.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators, this course examines the ways in which immersive media technologies (virtual reality, augmented reality, and mixed reality) can support socio-emotional learning (SEL) across subject areas in K-12 classrooms. Special emphasis is placed on the ways in which immersive media can heighten empathy through experiential learning. Students explore and evaluate applications related to mindfulness, empathy, and social interaction, and develop an immersive media project that supports socio-emotional learning.

## **LINC 79C • EDUCATIONAL EXPLORATION THROUGH IMMERSIVE MEDIA**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading; this course uses VR headsets and hand controllers as part of instruction.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators at all levels, this course examines the ways in which immersive media (virtual reality, augmented reality, and mixed reality) provides unique opportunities for educational exploration. With an emphasis on historical, geographical, and scientific topics, students explore and evaluate a variety of educational applications and experiences, and design and develop their own educational tours using immersive media.

## **LINC 79D • COLLABORATION IN VIRTUAL EDUCATIONAL ENVIRONMENTS**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading; this course uses VR headsets and hand controllers as part of instruction.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators and industry professionals, this course examines the ways in which immersive media technologies (virtual reality, augmented reality, and mixed reality) allow for communication and collaboration within virtual environments. Students explore and evaluate a variety of emerging collaborative environments in virtual and mixed reality, analyzing their potential according to educational frameworks. Additionally, students use immersive media to collaborate on the design and development of an interactive virtual educational environment.

## **LINC 80 • MULTIMEDIA OVERVIEW**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 251.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

An overview of multimedia software and hardware and the multimedia production process. Designed for trainers, educators, and anyone interested in multimedia, the course features hands-on learning with computer-based or internet software authoring tools to design and produce a multimedia project or presentation that integrates text, graphics, animation, sound, and digital video for educational, business, or entertainment purposes.

## **LINC 80A • MULTIMEDIA IN THE CLASSROOM I**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 252.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Explores the pedagogy and computer-based software tools used to effectively design and manage multimedia in the learning process. Best design practices and hands-on experience with computer-based multimedia authoring tools will be used to produce a student-centered project, such as an audio book, animation, musical slideshow, video composition, or interactive presentation. Course content is appropriate for students, entrepreneurs, media designers, and educators.

## **LINC 80B • MULTIMEDIA IN THE CLASSROOM II**

**Units:** 0.5  
**Hours:** 6 lecture per quarter (6 total per quarter)  
 This course meets 1 time per quarter.  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 252S.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Explores pedagogy and online multimedia tools for educators who want to use multimedia production for student-centered learning. Features hands-on experience with internet multimedia authoring tools and resources for audio, video, music, animation, and images, to design and produce a student-centered project.

## **LINC 81 • USING DIGITAL IMAGES**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 257.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

An introduction to digital image acquisition, manipulation, use, and storage. Students will learn to find, edit, and use images in any software application for educational, business, or social purposes. Online image storage and sharing services will be evaluated. Students produce a gallery of images based on themes or categories.

## **LINC 82A • INTRODUCTION TO DESIGNING INSTRUCTIONAL TECHNOLOGY PROJECTS**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic skills using standard computer systems and internet-based technologies.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This introductory course in designing and developing instructional projects is for students, educators, and trainers interested in the planning of instructional design and technology projects. Students will acquire the knowledge and technology skills needed to lead the design, creation, and iteration of instructional materials, specifically, basic project management, applying instructional technology principles, and using rapid prototyping models to efficiently design, make, and evaluate instructional projects for education or business learning contexts.

## **LINC 82B • DEVELOPING INSTRUCTIONAL MATERIALS**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic skills using standard computer systems and internet-based technologies; some experience with multimedia is advised, but not required.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This instructional design and development course builds on the coursework of LINC 82A and focuses on refining the skills needed for making digital media for education or business learning contexts. Students interested in the study of instructional design will rapidly design, develop, and evaluate presentations, infographics, posters, digital resources, multimedia, and websites for particular learning styles. Special emphasis is given for using collaborative tools to facilitate and manage group projects.

## **LINC 82C • CREATING INTERACTIVE MEDIA FOR INSTRUCTION**

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic skills using standard computer systems and internet-based technologies.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This advanced course in creating interactive media for instruction continues the coursework of LINC 82A and LINC 82B and provides the depth of skills and knowledge needed for making online learning media that includes interactive components, such as instructional video, multimedia, game-based learning, graphical user interface design, interactive tutorials, embedding collaborative elements in websites or learning management systems. Students interested in the study of instructional design and technology will develop a project for either education or business learning contexts.

## **LINC 83A • ADOBE PREMIERE**

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Familiarity with PC or Mac, scanning photos, and using a digital still and digital video camera; not open to students with credit in LINC 81CS.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

Adobe Premiere provides students with skills necessary to create digital movies. Projects are standards-based and appropriate for classroom use. Students will include text, sound, and the "Ken Burns Effect," as well as other special effects, in their movies.

## **LINC 83F • INTRODUCTION TO DIGITAL VIDEO EDITING**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 244.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Introductory course covers the skills to create short, digital movies for the web or computer playback using low-cost, internet-based, or free software. Course topics including finding existing video, creating video slideshows, making titles, adding voiceover or music, and creating animation effects. Class projects are designed for use in education, business, and personal applications.

## **LINC 84 • FUNDAMENTALS OF MAKERSPACE DESIGN & INSTRUCTION**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** Basic skills using standard computer systems and internet-based technologies.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This introductory course in makerspace coordination is for students, teachers, educators, and trainers who are interested in becoming makerspace coordinators in schools, libraries, or business settings. Students will develop foundational knowledge and skills in makerspace design, set-up, and management. Practiced skills include the following: designing engaging spaces with learners in mind; developing learning activities that promote creativity, making, and design thinking; creating policies and procedures to ensure safety and accessibility; selecting and maintaining equipment; managing instructional materials. Special emphasis is placed on applying best practices for managing and using makerspaces in instructional settings.

## **LINC 84A • 3-D DESIGN CONCEPTS**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators and others, this course provides foundational skills for moving 3-D designs from concepts to finished learning projects. The course focuses on application of finished products to meet specific needs or learning outcomes. Troubleshooting and basic maintenance concepts are covered, to allow students to operate and manage 3-D printers.

## **LINC 84B • 3-D DESIGN & FABRICATION**

**Units:** 2  
**Hours:** 2 lecture per week (24 total per quarter)  
**Advisory:** Experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Intended for educators and others, this course provides the fundamentals of 3-D design and fabrication concepts. Basic design software and online libraries are used to assist in developing and designing 3-D projects for learning projects by students in grades K-12, business, industry, and/or governmental. An emphasis is placed on design concepts to meet a specific educational/instructional/project need.

## **LINC 84D • VECTOR-BASED GRAPHIC DESIGN FOR MAKERSPACES**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity with web browsers, email, downloading, and uploading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This course provides an overview of web-based graphic design software, with a specific focus on designing for use with makerspace tools. Students will learn the basic procedures of vector design, including drawing objects, adjusting stroke outline and fill patterns, and working with layers. Students will both design new vector graphics and import and adapt existing graphics in order to facilitate their physical production using makerspace tools. Special emphasis will be placed on formatting vector graphics to meet the import requirements of different production tools, including laser cutters, vinyl cutters, CNC machines, and 3-D printers.

## **LINC 84E • LASER CUTTER FUNDAMENTALS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Experience with basic computer and internet functions; experience with vector-based graphic design software is recommended, but not required.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Intended for makerspace educators and interested makers, this course provides an overview of the safe use and maintenance of laser cutter machines. Students design and produce projects on the laser cutter, using a variety of materials (cardboard, paper, wood, acrylic, stone, glass, fabric) and serving a variety of functions (flatpack assembly, art, display, engineering solutions). Advanced topics include rotary tools, filtration methods, machine maintenance, and bed installment/changes. Special emphasis will be placed on reinforcing design thinking concepts and the development of laser cutter makerspace projects to meet the needs of a variety of users.

## **LINC 84F • VINYL CUTTER FUNDAMENTALS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Experience with basic computer and internet functions; experience with vector-based graphic design software is recommended, but not required.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Intended for makerspace educators and interested makers, this course provides an overview of the safe use and maintenance of vinyl cutter machines, ranging from hobbyist to industrial capacities. Students will design and produce projects on the vinyl cutter, working with a variety of materials, blades, tools, and mats to address different functional needs. Students will use design software to create and import images, separate layers, and determine outcomes based on both hardware and media. Products developed include stickers, pop-up art, t-shirts, mixed media projects, boxes, and large-format vinyl pieces. Special emphasis will be placed on reinforcing design thinking concepts and the development of vinyl cutter makerspace projects to meet the needs of a variety of users.

## **LINC 86A • VIDEO PODCASTING I**

**Units:** 0.5  
**Hours:** 6 lecture per quarter (6 total per quarter)  
 This course meets 1 time per quarter.  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Introductory course on video podcast production. Using free online or industry-standard editing software, participants will create a basic video podcast or screencast that is for instructional, informative, or persuasive purposes in education, professional, or personal contexts.

## **LINC 86C • DIGITAL STORYTELLING IN EDUCATION**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Designed for educators and administrators, this course invites participants to harness the power of digital storytelling to amplify diverse voices and enhance educational outcomes. The course welcomes participants with little to no experience in digital storytelling. Focusing on the strategic use of multimedia tools, participants will create compelling digital narratives that communicate the values, achievements, and aspirations of diverse educational communities. The course covers techniques in personal and institutional branding, multimedia content creation, and effective communication strategies tailored for inclusive educational settings. Emphasis is placed on crafting stories that resonate with diverse audiences, using storytelling for professional networking, and enhancing stakeholder engagement. Through hands-on projects, including a capstone project focused on real-world applications, educators will learn to leverage digital storytelling as a dynamic tool for professional and educational advancement.

## **LINC 87 • SEMINAR IN TEACHING WITH EDUCATIONAL TECHNOLOGY**

**Units:** 5  
**Hours:** 5 lecture per week (60 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

This seminar is for educators at all levels to develop student-centered learning projects and teaching practices, apply practical educational technology tools and resources, and participate in a collaborative professional development experience. Participants learn to use innovative technologies in their own curriculum content area and best practices for teaching and learning that positively impacts student achievement. Topics include 21st century skills for teaching and learning, visual literacy, media literacy, free online tools and resources for education, educational software training, open education resources, professional learning networks, integrating technology into the curriculum, integrating science and mathematics into any curriculum, assessment strategies for complex learning outcomes, and student-centered learning.

## **LINC 87A • EDUCATION TECHNOLOGY LEADERSHIP**

**Units:** 3  
**Hours:** 3 lecture per week (36 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; basic skills and knowledge using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit Status:** Degree-Applicable Credit Course

**Foothill GE:** Non-GE  
**Transferable:** CSU  
**Grade Type:** Letter Grade (Request for Pass/No Pass)  
**Repeatability:** Not Repeatable

Designed for aspiring and current education leaders, this course invites students to participate as co-creators in the integration of leadership skills and technology to drive innovation within educational settings. It covers essential aspects of educational technology leadership, including personal branding, professional networking, effective presentation and workshop facilitation, and innovative technology integration. The course emphasizes fostering inclusive environments that promote collaboration and respect for diverse viewpoints. Through practical exercises and a capstone leadership project, students will explore advanced conflict management strategies, team dynamics, and innovative technology integration, preparing them to lead and support equitable educational technology initiatives.

## LINC 88 • INTRODUCTION TO COMPUTER OPERATING SYSTEMS

<b>Units:</b>	4
<b>Hours:</b>	3 lecture, 3 laboratory per week (72 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems, and basic skills and knowledge of internet technologies, such as using web browsers, email, bookmarking, searching, and downloading.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Introductory course, covering computer operating systems, such as Microsoft Windows 7, Windows 8, Windows 10, and Linux. Students learn to install, configure, and administer a desktop operating system; automate operating system installation; set up and manage user accounts; and configure local file systems. Configure and troubleshoot both local and network printers, manage and troubleshoot access to shared folders, and recover from system failures.

## LINC 90B • OPEN EDUCATION RESOURCES

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems, and basic skills and knowledge of internet technologies, such as using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 215.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Overview of Open Educational Resources (OER) and the use of free public domain materials for teaching and learning. Aims to build participants' knowledge and skills to find, adapt, repurpose, and create accessible OER for use in education and training environments. Course topics include OER terminology, OER quality, copyright and fair use issues, sources and repositories of public domain materials in various disciplines, technical issues regarding accessibility, and uses of Creative Commons. Participants explore and analyze: OER tools and standards available to develop, organize, and disseminate content; public domain learning materials; searching techniques for identifying public domain learning materials; professional collaboration strategies; and criteria for assessing the suitability of public domain learning materials for use in various disciplines. Participants create a lesson, activity, or training module that incorporates OER, or create an OER for an identified purpose.

## LINC 90C • ONLINE COLLABORATION TOOLS

<b>Units:</b>	2
<b>Hours:</b>	2 lecture per week (24 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 214.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This course provides educators with the skills and knowledge necessary to effectively utilize online collaboration technologies in educational settings. It explores a variety of digital tools that facilitate communication, collaboration, and project management in both synchronous and asynchronous learning environments. Students will learn how to integrate these tools into their teaching practices to enhance student interaction and foster a collaborative learning community. Through hands-on activities, students will design and implement collaborative projects that demonstrate their ability to create engaging and interactive online learning experiences.

## LINC 91A • INTRODUCTION TO ASSESSING INSTRUCTIONAL TECHNOLOGY

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic skills using standard computer systems and internet-based technologies.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This introductory course in assessing instructional technologies is for students, educators, and trainers interested in instructional design and technology. Students develop critical thinking skills and use evaluation processes, resources, and instruments to select and evaluate instructional materials, technologies, resources, and programs that meet specific learning outcomes for educational and training contexts. Coursework includes using technology to conduct survey research and basic data analysis. This course is part of the Instructional Design and Technology program sequence.

## LINC 91B • EVALUATING TECHNOLOGY-BASED LEARNING OUTCOMES

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	It is advised, but not required that students have the background knowledge and skill taught in LINC 91A; basic skills using standard computer systems and internet-based technologies.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This instructional design and technology course builds on the coursework of LINC 91A and focuses on evaluating learning outcomes in educational and business training contexts. Students will design and develop technology-based authentic and performance-based assessments, rubrics, needs assessment plans, learner analysis instruments, adaptive testing, and surveys. Coursework includes managing data collection, analyzing results, and reporting findings. This course is part of the Instructional Design and Technology program sequence.

## LINC 91C • EVALUATING INSTRUCTIONAL PROGRAMS

<b>Units:</b>	3
<b>Hours:</b>	3 lecture per week (36 total per quarter)
<b>Advisory:</b>	Basic skills using standard computer systems and internet-based technologies.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This advanced course in evaluating instructional technology programs continues the coursework of LINC 91A and LINC 91B and further develops the skills and knowledge students need to measure and evaluate the effectiveness of educational curriculum or training programs. Using analysis skills, students examine the entire process from program design to implementation. Students interested in the study of instructional design and technology will determine and report on the effectiveness of an instructional program or curriculum for either online or classroom delivery in terms of instructor preparation, planning, delivery medium, and effective use of technology. Skill development includes effective use of technology tools for writing, conducting, analyzing, and reporting an instructional program evaluation plan. This course is part of the Instructional Design and Technology program sequence.

## LINC 93B • DESIGNING ACCESSIBLE EDUCATIONAL RESOURCES

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Familiarity with PC or Mac; basic internet skills; not open to students with credit in LINC 221.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

This course explores the critical role of assistive technologies in ensuring universal access to education. Students will review current legislation and best practices in the design and implementation of educational resources that accommodate all learners, regardless of ability. They will engage with a variety of tools and strategies to create accessible educational environments that comply with legal standards and promote equity in digital spaces. Through practical application and evaluation, students will learn to assess and enhance the efficacy of technology accommodations in real classroom settings.

## LINC 95B • TECHNOLOGY ETHICS & EDUCATIONAL LAW

<b>Units:</b>	1
<b>Hours:</b>	1 lecture per week (12 total per quarter)
<b>Advisory:</b>	Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using Web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 220.
<b>Degree and Credit Status:</b>	Degree-Applicable Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	CSU
<b>Grade Type:</b>	Letter Grade (Request for Pass/No Pass)
<b>Repeatability:</b>	Not Repeatable

Overview of current issues and legislation in computer ethics and cyberlaw. Topics such as copyright, fair use, acceptable use plans, digital divide, accessibility, internet filtering, social media, and cyber bullying are discussed, with emphasis on the implications for the student, classroom teacher, school site, parent obligation, civic government, and broader society.

## **LINC 95C • TECHNOLOGY-INTEGRATED AUTHENTIC ASSESSMENTS**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 260.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This course explores the design and implementation of effective assessment strategies within technology-enhanced learning environments. Emphasis is placed on the integration of authentic assessments that align with educational standards. Students will learn to critically analyze various assessment tools and methods, focusing on their effectiveness in facilitating and measuring progress and learning. The course also covers the development of continuous reflective practice for ongoing growth and development.

## **LINC 96B • HANDHELD DIGITAL MEDIA DEVICES I**

**Units:** 0.5  
**Hours:** 6 lecture per quarter (6 total per quarter)  
 This course meets 1 time per quarter.  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 292A.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This introductory course is for those interested in exploring how hand-held devices can be applied in an education or training setting. Provides hands-on experience with hand-held devices such as smartphones and tablet computers. Participants will learn how to operate the hand-held, explore available software for the device, and learn how to use it for educational, training or other projects.

## **LINC 98 • TEACHING & LEARNING IN THE DIGITAL AGE**

**Units:** 1  
**Hours:** 1 lecture per week (12 total per quarter)  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching, and downloading; not open to students with credit in LINC 228; students may enroll in LINC 98 or 98B, but not both, for credit.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

This overview course trains participants to develop and implement innovative digital learning solutions. Students will explore and curate digital resources, design and evaluate digital learning materials, and apply these skills in real-world educational settings. The course also emphasizes the importance of collaboration and reflective practices, enabling students to enhance their educational technology practices through peer coaching, feedback, and effective use of collaborative tools. This course is suited for educators and trainers aiming to enhance their instructional strategies with the latest educational technologies.

## **LINC 98A • TEACHING & LEARNING IN THE DIGITAL AGE I**

**Units:** 0.5  
**Hours:** 6 lecture per quarter (6 total per quarter)  
 This course meets 1 time per quarter.  
**Advisory:** Basic computer skills and knowledge of Macintosh or Windows operating systems; familiarity using web browsers, email, bookmarking, searching and downloading; not open to students with credit in LINC 228S.

**Degree and Credit** Degree-Applicable Credit Course

**Status:**

**Foothill GE:** Non-GE

**Transferable:** CSU

**Grade Type:** Letter Grade (Request for Pass/No Pass)

**Repeatability:** Not Repeatable

Introduction to integrating educational technology in the classroom for those interested in using technology to effectively deliver curriculum content, engage in professional development, and efficiently manage the classroom or training environment (e.g., online grading, storage, communication with parents, etc.). Participants will examine and set up appropriate technology tools.

**LINC 401 • BASIC MAKERSPACE SKILLS I**

<b>Units:</b>	0
<b>Hours:</b>	3-360 hours laboratory total per quarter.
<b>Advisory:</b>	Basic computer skills and knowledge of operating systems; familiarity using web browsers, email, bookmarking, searching and downloading.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

Introduces students and other individuals to the tools and skills used in makerspaces. These skills include, but are not limited to: basic makerspace safety, basic tool safety, basic prototyping. Students learn independently and in groups to enhance their personal skills in using tools safely and effectively to create and build items for personal and educational uses. After completing the two-course sequence of LINC 401 and 402, students will receive training and badges to safely use each tool at a beginning level. Students will be more prepared for entering STEM and maker career paths in education, community centers, and libraries. This course cannot be taken for credit.

**LINC 402 • BASIC MAKERSPACE SKILLS II**

<b>Units:</b>	0
<b>Hours:</b>	3-360 hours laboratory total per quarter.
<b>Advisory:</b>	Basic computer skills and knowledge of operating systems; familiarity using web browsers, email, bookmarking, searching and downloading.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

Introduces students and other individuals to the tools and skills used in makerspaces. These skills include, but are not limited to: basic machine safety, basic computing concepts, basic electronics. Students learn independently and in groups to enhance their personal skills in using tools safely and effectively to create and build items for personal and educational uses. After completing the two-course sequence of LINC 401 and 402, students will receive badges for each machine/tool in safety and basic use. Students will be more prepared for entering STEM and maker career paths in education, community centers, and libraries. This course cannot be taken for credit.

**LINC 405 • BEGINNING TECHNOLOGY SKILLS**

<b>Units:</b>	0
<b>Hours:</b>	3-360 hours laboratory total per quarter.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit course introduces students and other individuals to basic technology skills. These skills include, but are not limited to: basic word processing skills; basic spreadsheet skills; basic management and organization of files; saving, downloading, and uploading files; basic email use; mouse/navigation skills; internet search skills. Students learn independently or in small groups to enhance their personal skills in using a computer for basic digital tasks needed to begin Foothill College coursework.

**LINC 411 • GOOGLE DRIVE**

<b>Units:</b>	0
<b>Hours:</b>	3 lecture per quarter (3 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of Google Drive, as part of the G Suite of tools. Skills covered include managing and organizing files and folders in Google Drive, as well as managing sharing settings. This course will prepare students for the Drive portion of the G Suite Certification exam.

## **LINC 412 • GMAIL**

<b>Units:</b>	0
<b>Hours:</b>	3 lecture per quarter (3 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of Google's email service, Gmail, as part of the G Suite of tools. Skills covered include personalizing settings, managing and organizing the inbox, and using the contacts features. This course will prepare students for the Gmail portion of the G Suite Certification exam.

## **LINC 413 • GOOGLE HANGOUTS MEET**

<b>Units:</b>	0
<b>Hours:</b>	3 lecture per quarter (3 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course; a computer with a built-in or connected camera and microphone are necessary for this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of Google's video conferencing service, Hangouts Meet, as part of the G Suite of tools. Skills covered include setting up a Hangout, managing audio and visuals, and handling users. This course will prepare students for the Hangouts Meet portion of the G Suite Certification exam.

## **LINC 414 • GOOGLE DOCS**

<b>Units:</b>	0
<b>Hours:</b>	4 lecture per quarter (4 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of Google's cloud-based document service, Google Docs, as part of the G Suite of tools. Skills covered include setting up a document, formatting text, inserting images and tables, and collaborating with other users. This course will prepare students for the Docs portion of the G Suite Certification exam.

## **LINC 415 • GOOGLE SHEETS**

<b>Units:</b>	0
<b>Hours:</b>	5 lecture per quarter (5 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of Google's cloud-based spreadsheet service, Google Sheets, as part of the G Suite of tools. Skills covered include cell management, formatting spreadsheets, using functions, and managing data. This course will prepare students for the Sheets portion of the G Suite Certification exam.

## **LINC 416 • GOOGLE SLIDES**

<b>Units:</b>	0
<b>Hours:</b>	3 lecture per quarter (3 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of Google's cloud-based presentation service, Google Slides, as part of the G Suite of tools. Skills covered include presentation design, formatting text, inserting images and videos, arranging objects, and sharing presentations. This course will prepare students for the Slides portion of the G Suite Certification exam.

## **LINC 417 • G SUITE CERTIFICATION PREPARATION**

<b>Units:</b>	0
<b>Hours:</b>	3 lecture per quarter (3 total per quarter)
<b>Advisory:</b>	Basic experience with internet software tools, browsers, hyperlinks, online media resources, and basic skills using a computer; students will need a free Google account to participate in this course; a computer with a built-in or connected camera and microphone are necessary for this course; it is recommended that students have completed LINC 411, 412, 413, 414, 415, and 416 before beginning this course.
<b>Degree and Credit Status:</b>	Non-Degree-Applicable Non-Credit Course
<b>Foothill GE:</b>	Non-GE
<b>Transferable:</b>	None
<b>Grade Type:</b>	Non-Credit Course (Receives no Grade)
<b>Repeatability:</b>	Unlimited Repeatability

This noncredit workforce preparation course provides an overview of the G Suite Certification exam. Topics covered include exam question types, test strategies and review of G Suite tools. Students will practice with sample exam questions and performance tasks. This course will prepare students for the format and expectations of the G Suite Certification exam.
