

# NON-CREDIT: EMERGENCY MEDICAL TECHNICIAN (FORMERLY EMERGENCY MEDICAL TECHNOLOGY)

---

## Program Description

The Certificate of Completion in Emergency Medical Technician provides foundational knowledge and hands-on training for individuals pursuing a career as an Emergency Medical Technician (EMT). Students learn to assess and deliver life-saving care to patients in both emergency and non-emergency situations involving injury or illness. This certificate prepares students for entry-level employment with ambulance providers, including those that offer inter-facility transport and 911 emergency response services. Graduates may also find opportunities as emergency department (ED) technicians, supporting patient care in hospital settings.

Learn more about the program on the [Emergency Medical Services website](#).

## Program Learning Outcomes

- The student will be able to perform as a competent, entry-level EMT in accordance with Title 22, providing life saving care during emergent and non-emergent incidents that involve victims of illness or injury.
- The student will be eligible to take the National Registry EMT written exam for national certification.
