

PSYCHOLOGY

Program Description

Psychology stands at the intersection of the biological sciences and the humanities because of its study of mental processes, emotions, and behavior. Using the scientific method, psychology investigates many aspects of human behavior, including, but not limited to, how the brain and nervous system function, mental illness, therapies that help people manage mental illness and recover from trauma, social and emotional development over the lifespan, learning and memory, and social and group dynamics.

Psychology covers the total lifespan to learn more about how people function in family, work, and community settings. Psychologists conduct studies to investigate differences in development, research what can go wrong in development, and develop methods that help people resolve conflict. It is a dynamic field in which advanced research methods lead to new understandings of human behavior, which can be applied to help people thrive and live healthy lives.

Learn more about the program on the [Psychology website](#).

Associate Degree for Transfer

This program also offers an Associate Degree for Transfer. Learn more and review the degree requirements on the [Psychology AA-T listing](#).

Program Learning Outcomes

- Students will be able to recognize the diversity of behavior of various populations and be able to explain, interpret, apply, and evaluate a broad base of concepts in the different fields of psychology.
- Students will be able to apply critical thinking skills and psychological theories to real-world situations, and be able to apply research methodology and data analysis in the process of answering questions about human behavior.

Career Opportunities

Psychology graduates find positions in a wide range of work environments. Typical positions include personnel managers, industrial psychologists, psychiatric aides, probation officers, mental health workers, drug abuse counselors, employment counselors, and teachers. Advanced degrees, such as a Masters (MA), a Marriage and Family Therapy (MFT), a PsyD, and a PhD, can open opportunities for careers in research, counseling, and higher education. Psychologists also work as consultants in government and industry, as well as in human resources, marketing, business management, technology, software development, and education.

Award Type(s)

- AA = Associate in Arts Degree

Units Required

- Major: 35

Additional Information

Note: Students having difficulty attaining an associate degree because of timing or availability of classes should consult with a counselor to submit a petition for course substitution.

Associate Degree Requirements

Code	Title	Units
English Proficiency		
Select one of the following:		
ENGL 1A	COMPOSITION & READING	5
ENGL 1AH	HONORS COMPOSITION & READING	5
ESLL 26	ADVANCED COMPOSITION & READING	5
or equivalent		
Ethnic Studies		
Any course in the ETHN (Ethnic Studies) subject code, currently approved for Area F of CSU GE and Area 7 of IGETC		
Mathematics Proficiency		
College-level math course at or above the level of Intermediate Algebra		

A minimum of 90 units is required¹ to include:

- Completion of one of the following general education patterns: Foothill General Education, CSU General Education Breadth Requirements or the Intersegmental General Education Transfer Curriculum (IGETC)
- Core courses (15 units)
- Support courses (20 units)

¹ Additional elective course work may be necessary to meet the 90-unit minimum requirement for the associate degree.

Note: All courses pertaining to the major must be taken for a letter grade. In addition, a grade of "C" or better is required for all core and support courses used for the degree.

Core and Support Courses

Code	Title	Units
Core Courses		
PSYC 1	GENERAL PSYCHOLOGY	5
or PSYC 1H	HONORS GENERAL PSYCHOLOGY	
PSYC 7	STATISTICS FOR THE BEHAVIORAL SCIENCES	5
or SOC 7	STATISTICS FOR THE BEHAVIORAL SCIENCES	
or MATH 10	ELEMENTARY STATISTICS	
PSYC 10	RESEARCH METHODS & DESIGNS	5
or SOC 10	SOCIAL RESEARCH METHODS & DESIGNS	
Support Courses		
Select 12 units from the following:		12
PSYC 2	CULTURAL PSYCHOLOGY	
PSYC 4	INTRODUCTION TO BIOPSYCHOLOGY	
PSYC 9	POSITIVE PSYCHOLOGY	
PSYC 14	CHILD & ADOLESCENT DEVELOPMENT
